13 Injured In 32 Area Traffic Accidents

Wm. Ogden, Wife Hurt In Arkansas Crash;

Rte. 203 Pileup Today

Thirteen persons were injured in the Quad-City area and out-of-state during the weekend in a series of 32 traffic accidents.

Mr. and Mrs. William E. Ogden, 4033 Stearns avenue, were injured in an auto collision at 8 p.m. Friday at Hot Springs, Ark. Ogden, manager of the Trip City Grocery store at the Bellemore Village shopping center, is hospitalized at Hot Springs.

Their auto was struck by an auto driven by John Crumby Jr., Arkadelphia, Ark., whose car also so hit another auto.

The Ogdens were taken to St. Joseph's Hospital at Hot Springs. He suffered a broken arm and rib and a severe cut to his head. Mrs. Ogden had a forehead cut requiring 22 sutures and a cut to a knee which was placed in a cast to immobilize it.

The Ogdens, on vacation, were returning from Dallas, Tex., where they had visited their daughter, Mrs. James Ridings. They had just checked into a motel and were enroute to a restaurant when the accident occurred. The car was demolished.

A four-car chain reaction collision in smoky fog caused injuries to two persons at 6:10 a.m. today on Highway 203 at a half mile south of Bend road. Traffic was delayed and jammed all the way to the Interstate 70 intersection.

Taken to St. Elizabeth Hospital were Phillip Skinner, 22, of Collinsville, and Dennis Holtras, 21, of Beckenmeyer. Skinner was admitted with abrasions and pains in the head and neck. X-rays were taken. Holtras was given treatment for wounds to his face and left elbow and was released.

The drivers were Willie L. Young, East St. Louis; Donald A. Dressell, East St. Louis; Herbert M. Laux, Carlyle; and Sinner.

The autos were badly damaged. Motorists noted the smell of smoke in the area where old dumps are located and state police said visibility was cut to about 15 feet. Dump operators have been ordered by the state to cease burning trash.

Auto Knocked Against Chimp. Richard Womack, three, son of Mr. and Mrs. John Womack, 213 Delmar avenue, received minor injuries at 9:30 p.m. Sunday when a parked car by which he was standing with his father was hit by another car.

Madison police reported Luther F. Ray, 2528 Willow avenue, 21, of Beckenmeyer, was injured while backing his car in the Grenzer Homes parking lot when it struck John Womack's car. Womack and the boy were standing by the car and the child said the car hit him in the stomach. He was not hospitalized.

UF Drive Making Strides—Next Report Due on Friday

United Fund drive volunteers are working diligently to hit the \$348,500 goal by Friday's report meeting to be held at the YMCA.

Progress since last Wednesday's initial 50% report meeting has been inspiring. Drive Chairman John R. Hundley said today, "And all steps are out for Friday's big event."

While only an additional \$1836 in pledges has been returned to the United Fund headquarters since last Wednesday, Hundley said he has not called upon the volunteer "champions" to pause to tabulate. "We'll wait until later this week," he commented.

The total today stood at \$178,415, or 51.3% of the goal.

House-to-house solicitations were started over the weekend by a crew of Jaycees—Michael Day, Boyd Presley, James Burton, Victor Weatherholt and Guy Cooper—headed by Donald Cave, Jaycee drive chairman.

Joseph Gluk, president of the UF board, reported Friday that directors had approved the \$348,500 goal for the 1966 goal to provide additional funds for the USO to open more centers in Vietnam. A national appeal for added funds was made early last week.

Three other areas included in an "awareness and public opinion" survey made in connection with the Interstate Air Pollution Study, according to a detailed survey report released last week by the U. S. Public Health Service.

The report on the informational, or fact-finding phase of the study, made to determine the extent of public awareness of air pollution and what the public would like to do about it, covered four separate sections of the Illinois—Missouri Metropolitan area—Madison and St. Clair counties on this side of the river, and St. Louis city and St. Louis county on the Missouri side.

In the conclusion drawn from the survey, the report pointed out that it had made a sampling of 300 residents in each of the four residential areas on the question of which of six social problems, including air pollution, was considered the most serious, and went on to say:

"The problem of air pollution can be masked, or can mask other social problems. Certainly where it exists it can, depending upon the existence of other problems, be a considerable factor in the overall feeling of a resident about his community."

"St. Louis County residents, who thought no problem was very serious in their community, cited lack of recreation areas as their most serious problem. Juvenile delinquency was most important to St. Louis City residents; air pollution ranked fourth. In Madison county, Illinois, air pollution ranked first."

Unemployment Also Concern

The report went on to say that "Madison county residents at the city or township level are concerned primarily with unemployment and air pollution, with about 20% considering each of these problems to be 'very serious'."

T. R. Reed of Columbus, Ind., president of Union Starch & Refining Co., and Elwood D. Swisher, Denver, Colo., vice-president in charge of negotiations for the Oil, Chemical and Atomic Workers International union, have agreed to join in negotiations at a meeting set for 10 a.m. Thursday in the offices of the U. S. Mediation Service at St. Louis. Joining the session will be Paul Bowers, Washington, D. C., play-by-bringing higher echelon officials of both the union and the company to the negotiating table.

Company officials said that Reed will be present at the negotiations "only in advisory capacity" and will not arrange to participate in the negotiation discussions.

Arrangements for the meeting were made Friday as the strike entered its 106th day. It represents the second attempt to bring about settlement of the strike—marked by vandalism and violence, including gunplay.

Burglar Flees With \$515 From Residence

Escapes After Talking With Housewife; Other Thefts Investigated

Chief of Detectives George Teller this afternoon served a warrant on Danny Paul Farley, 21, of the 2700 block of Denver street charging him with a \$515 burglary Saturday night at the Carl Pubbe home. Farley denies the charge, Teller said.

Police are questioning a suspect today in connection with a \$315 burglary Saturday night at the home of Mr. and Mrs. Carl Pote, 1827 Delmar avenue.

Mrs. Pote reported to police at 9:30 p.m. Saturday that a man was standing in her kitchen door when she returned home and that he told her he had been in her side of the duplex home to use the telephone.

The man then went into the bathroom which is shared with the occupants of the other half of the duplex.

Mrs. Pote began going through her belongings and discovered \$300 in \$20 bills missing from a bank in a dresser drawer and \$200 in \$20 bills was missing from a Granite City St. Co. Employees Credit Union pass book. Another \$15 was missing from a jewelry box, she said.

Upon making the discovery, Mrs. Pote went to the bathroom door and found it locked from the inside. She then went to the rear door of the adjoining apartment and knocked, but no one answered.

As she walked around to the front porch, she saw a man in a dark suit and a hat standing in the front porch. He jumped off and ran to 17th street where he fled east.

Mrs. Pote and the next door tenant also were at police headquarters today.

Rifles, Machine Stolen

A burglar who smashed a transom and crawled through made off with two .22 caliber rifles, an adding machine, an electric drill and five rolls of five-cent postage stamps at Tarpoff Packing Co., 1428 Edwards street.

The "break-in" was discovered Sunday morning by Jon Tarpoff. The value was set on the missing items.

Two coats valued at \$70 each were shoplifted at Leader Department store. It was discovered Friday afternoon when the stock was being checked. Eugene Gutin, manager, said the coats were either Thursday or Friday.

One was brown with white and black stripes and a white fur collar and the other was dark green with a mink collar.

Cut Hole in Wall

Burglars cut a three-foot hole in the south wall of the Madison Iron & Metal Co., Sixth street and Madison avenue Sunday night or early today and hauled away nearly two barrels of copper wire.

Police said the thieves apparently pushed the stolen wire through the same hole by which they entered, and left the company yards by climbing over a double gate on the north side of the company.

Two State Cooperation Reopens Airport

Break-through of the state boundary line barrier for development of an airport facility to serve both Illinois and Missouri residents was stressed by all speakers at Saturday afternoon's dedication of Bi-State Park's Airport at Cahokia.

A rain shower cut short the talk by Gov. Otto Kerner, who had arrived by twin-motor plane for the ceremony. When the brief rainstorm ended, the governor was invited to resume his talk, he replied that he had said enough and the ceremony should proceed so the airport could be put in full operation.

Gov. Kerner was introduced by C. E. Townsend, chairman of the Bi-State Development Agency and editor-publisher of the Press-Record.

Bi-State, a non-taxing agency with the sole purpose of carrying out projects beneficial to the two-state area, revived the defunct airport which was reopened in April.

The airport was purchased and is being improved with a new main runway through grants from the Federal Aviation Agency of \$1,037,475 and the state of Illinois, \$315,000, and an advance of \$500,000 by the city of St. Louis, plus a revenue bond issue of \$1,700,000.

and James Reed of the East St. Louis Chamber of Commerce.

Other speakers were Mayors Alvin Fields of East St. Louis, Robert D. Jackson of Cahokia, A. J. Cervantes of St. Louis and Harold G. Baker Jr., president of the Southwest Civic Memorial Airport Association.

The dedication was attended by about 200 invited guests. A public ceremony will be held at a later date. The airport is being operated for Bi-State by the nonprofit Illinois corporation, Southwest Civic Memorial Airport Association.

The main runway, which is 100 feet wide and 4025 feet long, is paved and lighted.

Officially Opening Bi-State Park's Airport

Man in Cell Pulls Gun on Madison Police

A shell jammed in the chamber of a .25 caliber automatic smuggled into a jail cell at Madison prevented the shooting of several Madison policemen Thursday, when a prisoner in a peace disturbance case attempted to pull the gun point-blank at two officers and repeatedly pulled the trigger.

The prisoner was identified as Robert E. Garner, 23, of 1619 Delmar avenue, who had been arrested early Thursday morning with Robert L. Forte, 23, of 3112 Willow avenue and Charles T. Howland, 22, of 1914 Edwardsville road, Madison, as the result of a disturbance in the Johnny Lewis tavern, Fourth street and Madison avenue.

The three men attacked police officers at the tavern, at the police station and again when Garner pulled the gun and tried to shoot the arresting officers. Forte and Howland were charged with peace disturbances; the tavern proprietors and with resisting arrest by Madison police.

Garner was named on charges of attempted murder, carrying a concealed weapon, battery and

two charges of aggravated assault. He was held without bail and was transferred to the county jail. Howland was released on \$50 cash bail. Forte was unable to post \$50 bond and was taken to the county jail.

Madison police, pending the filing of charges and issuance of warrants, held up information in the case until Saturday morning. Police received a call from the tavern at 1:30 a.m. Thursday that a patron was causing trouble over refusal of the barmaid to serve him.

Officer Richard Krieschok arrived and found Howland, Garner and Forte at a table. He ordered them to leave. They refused, and Garner arose from the table to protest. Krieschok took Garner's arm and led him toward the rear of the building. Police Chief Emmett Pazio, who talked to Garner and induced him to surrender the gun.

At the automatic of Italian make had three live shell in the clip and one shell jammed in the chamber. After Pazio removed the jammed shell, he was able to fire the gun.

The three men refused to give information for booking at police headquarters and again attacked the officers. Garner, who was handcuffed, threw the cuffs around Skolko's neck and attempted to choke him. Officers moved to use force and locked Garner in one cell and placed Howland and Forte in another.

A short time later, police said, Howland and Forte flooded the jail by stopping up the sink. At about 3:30 a.m., police said they heard noises in Garner's cell. Goclan, Krieschok and Skolko found Garner had pulled a paper holder from the wall.

While Skolko and Goclan were talking to Garner, he suddenly produced a gun, pointed it at the officers and pulled the trigger repeatedly. The officers fled from the room and summoned Police Chief Emmett Pazio, who talked to Garner and induced him to surrender the gun.

The automatic of Italian make had three live shell in the clip and one shell jammed in the chamber. After Pazio removed the jammed shell, he was able to fire the gun.

Optimists Told of County's Need for More Deputies

An insufficient number of patrol cars and personnel to man them, constantly creates problems in providing adequate police protection for Madison county residents, Capt. Louis Bowman of the Madison county sheriff's office related Thursday. The speaker addressed a luncheon meeting of the Granite City Optimist Club in the YMC.

At the point officers Theodore Skolko and Edward Goclan arrived. The trio fought the officers as they attempted to place them in the squad car. The officers had to subdue them.

detention home to house juvenile offenders. He told Optimist members that at the present time, juveniles are not detained or are kept in the regular jail. In emergencies, some are housed with juvenile officers at the detention home.

According to new state legislation, Bowman said, juvenile offenders 14 years and under must be housed in approved separate accommodations after Jan. 14, 1966. He added that passage of the new law has revived interest in the construction of a juvenile home.

A secondary function of such a building, Bowman continued, is to house abandoned or neglected children until they can be placed elsewhere.

The guest speaker was accompanied to the meeting by Deputy Sheriff John Cooper of Granite City. Both were introduced by Milton Allen, program chairman.

Edward L. Stone, Optimist president, conducted a brief business session. He announced a joint meeting of Optimist clubs from Alton, Edwardsville, Wood River and Granite City, slated for Nov. 13, at the Stratford Hotel, Alton.

Prior to adjournment, the group observed the birthdays of Rev. James R. Craddock and Alvin Michel.

Moore Resigns Office on County's Anti-Poverty Council

George E. Moore, president of the Madison County Economic Opportunity Commission, submitted his resignation Friday, stating his regular job at the Granite City Auto Depot prevents him "from devoting the time necessary to the successful accomplishment of the duties of this position."

Moore, who lives at 1929 St. Clair avenue, and is a member of the Granite City school board, has been a target for opposing factions of the commission. Official action on his resignation is expected to be taken at an executive session of the commission at 2:30 this evening in Edwardsville.

The new president is expected to be James Bailey of Alton, first vice-president.

Organizational Problems
Strong opposition to the present organization structure of the county anti-poverty commission was voiced Thursday night by J. Alan Gardner, president of the Tri-Cities EOC, during an informal meeting at the Venice city hall. A move to reorganize the commission for re-alignment of voting powers is to be presented at tonight's executive session in the county board of supervisors meeting room.

Protests to the present organization resulted in heated exchanges during Thursday night's meeting which was presided over

by Hugh Hairston of Venice and Bailey, in the absence of Moore. Hairston also is a vice-president. In attendance were representatives of the Alton-Wood River EOC, the Tri-Cities group and the county commission.

Gardner opened the four-hour session by saying his group was present at the specific request of Robert Shackleton, acting regional director of the Illinois EOC office, Chicago, who last week advised further attempts be made to iron out differences.

He added that the Tri-Cities Council would not combine with the county commission in applying for a federal anti-poverty program development grant "the way the commission is presently stacked against us."

Inadequate Representation
Gardner argued that his incorporated group is not represented on the commission and was ignored when the project application was being prepared. Others present reported that Roland B. Lewis, former head of the Tri-Cities group, had been invited to participate, but had declined to attend a planning and policy meeting.

Primarily representing the Venice area, the Tri-Cities Council is an outgrowth of an original anti-poverty committee which combined interested persons from Granite City, Madison and Venice.

Both the Granite City and

Madison elements elected to work through the county commission, while the Tri-Cities Council made a commitment to provide a grant development application for \$40,500 in federal funds to start its own project survey.

Until discussion is eliminated, the EOC office in Chicago has rejected all applications for funds from Madison county groups and has advised coordination through a single county commission.

Demanding a revision of the council's executive structure as well as the 100-member commission as a whole, Gardner and Charles D. Hampton, Venice Fourth Ward alderman, proposed a tripartite commission, with one delegate and a single vote for the Tri-Cities Council, the county group and the Alton-Wood River Council.

Gardner suggested a similar three-part organization composed of one group representing municipal and other local agencies and influential elements and the third comprising all local community action groups.

Single Vote Proposal
Under his proposal, each combination of groups would have a single vote on commission matters and maintain separate general memberships.

In its present constitution the commission is limited to 100 members, consisting of 60 mem-

bers elected by different county organizations; 20 members to be citizens not employed by or representing any agency or organization; and 20 members from poverty-stricken areas who will benefit under the anti-poverty program.

A query on the current status of the commission's \$120,438 program development application, adopted Aug. 12, was made by James Reideberger, Madison county juvenile officer and a commission member.

Lack of up-to-date information resulted in considerable criticism of Moore's absence from the meeting and his early departure from a session held earlier last week.

Mrs. Fern Hornberger, Granite City, director of social services for the Salvation Army, remarked the commission needs the services of an individual with more time to devote to the immediate problems of the organization. She described several cases of poverty in Madison county with which she is familiar.

Other critical statements on the lack of action in connection with the project application were voiced by Floyd Gallier, chairman, and Joseph N. Berry, vice-chairman, both of the Alton-Wood River organization.

Bailey invited those attending the meeting to present their views at tonight's executive session.

Calling All Home Makers

By Aaron Friedman
SHOULD FURNITURE BE MIXED OR MATCHED?

Many years ago, furniture stores featured six, seven and eight piece living room sets all in the same wood finishes. This finish usually was either mahogany, walnut or maple. Very often the fabric and color on the upholstered pieces were all identical.

Although many people still prefer to use the same wood finishes throughout the living room, the trend through the years has been to get away from sets or suites of living room furniture by using many different finishes in the same room very effectively.

As a matter of fact, many leading decorators prefer using different wood finishes and even different periods in the same room.

One of the latest living rooms I have seen had a mahogany piano, a modern sofa, two Early American maple chairs, a white marble top cocktail table with black base, and a fruitwood French Provincial breakfast. However, all the colors and textures of the floor coverings, fabrics, lamps, draperies and walls were beautifully blended.

So whether you like to mix or match, our decorators are at your service without cost or obligation. We invite you to come in. And be sure to watch for our future columns on furniture and interior decorating ideas. We'll be bringing them to you regularly.

So remember, when shopping, our decorating and sales staff here at Friedman's Furniture Co., Niedringhaus and Delmar Ave. in Granite City, is always ready to serve you. We are open Monday, Thursday and Friday night until 9:30 p.m., other nights until 5:30 p.m.

23 State Preserves Open for Hunters

The hunting season on Illinois shooting preserves is now open and ends on March 15, the Illinois Department of Conservation announced today.

The Department of Conservation licenses and supervises the operation of 130 preserves in Illinois. Most of them are operated as clubs and only members may hunt. But 23 preserves are open to the public on a daily fee basis.

Game birds are released on the preserves. Most of them duck, pheasant and mallard ducks but quail, Hungarian partridge, chukar partridge and turkeys are stocked on some areas. On the daily fee areas hunters may be charged according to the number of birds bagged.

Preserves may not harvest more than 80% of the quail, pheasants or Hungarian partridge stocked. Some of the birds not taken by hunters leave the preserves and stock the surrounding countryside.

Information on the shooting preserve program may be obtained from the Springfield office of the Illinois Department of Conservation, Room 102, State Office Building.

Braves Drop 33-0 Bomb on Roxana Shells

Coolidge junior high school Braves used a little strategy and a few new starters and wound up with a 33-0 football win over Roxana junior high in an away game Thursday afternoon.

Coolidge took the ball on its own 15-yard line in the early moments of the game and marched downfield 83 yards for a touchdown. Right halfback Jim Jones highlighted the spirited drive with runs of 29 and 13 yards.

Quarterback Gary Simpson scored from the four and the point after try failed.

On the following kickoff, the John Toncoff-coached team recovered a Roxana fumble on the enemy 40 yard marker. A first down set up a 35-yard "bomb" from quarterback Simpson to right end John Tyler. This time, Doug Mudd made the extra point on a run.

Early in the second period of play, Coolidge struck paydirt again; this time Simpson dropped back to pass, found no receivers open and decided to run with the ball. As a result he picked up 50 yards and another six points.

Mudd ran the PAT. A short time later Quarterback Richard Logan climaxed a 65-yard drive with a 14-yard touchdown run on a keeper play. The extra point attempt failed.

Roxana came out of the dressing room to hold Coolidge to a scoreless third quarter and almost did the same during the fourth period of play.

With two minutes left, quarterback Richard Logan tossed a 16-yard pass to Greg Homyer for a score and capped a 40-yard drive. Mike Pekarik made the point after on a dive play.

Coach Toncoff said he started a few new faces and they got the idea and scored early, giving the team some enthusiasm and momentum.

With the victory, Coolidge has a 2-1 record and is in second place in conference standings behind Collinsville North (3-0) and Collinsville Webster (3-0). If Coolidge can best North in their game this Thursday and if North in turn can beat Webster in the following week, the season would end up with a three-way tie for first place.

Miss Patricia Mejaski is Bride of William Loftus

St. Mary's Roman Catholic Church in Madison was the scene of the wedding Saturday morning. Their bouquets were of half crescent at 10 o'clock of Miss Patricia Mejaski and William C. Loftus.

The bride is a daughter of Mr. and Mrs. Mike Mejaski, 1721 Elizabeth street, Madison. Mr. and Mrs. Thomas Loftus, parents of the groom, reside at 2802 Hildebrand avenue, Cloverleaf, Madison.

The ceremony was performed by Rev. Engelbert Bienek, OFM. who used the double-ring ceremony. The bride's father escorted her down the white-carpeted aisle and gave her in marriage.

The bride is a daughter of Mr. and Mrs. Benjamin L. Ingram, 2913 Oregon avenue. Mr. Brown's parents are Mrs. Edith Shafer, 2611 State street, and the late Frank Shafer.

Rev. Frank Pierce performed the ceremony and a reception was held in the evening in the "300" Room of the Tri-Mor Bowl. Tall stands of white "mums" and arrangements of greenery decorated the sanctuary for the 2 o'clock ceremony.

The bride wore a bouffant gown of silk over taffeta. The bodice of re-embroidered lace trimmed with sequins and pearls, had a princess waist and long sleeves. The skirt, with a panel of lace in the front, was full and

Racheffs Return From Europe

A family reunion in Sofia, Bulgaria, after 53 years separation, was a most happy occasion recently for Tony Racheff of 1122 Madison avenue, Madison, who with his wife, Caroline, returned last week from a two-month tour of Europe. The couple, who came to this country in 1912, also toured Vienna, Austria, Rome, Italy and other locales.

Mr. Racheff, 68, a former barber and tavern owner, retired in 1952 after many years in business in Madison. While in Bulgaria, he was re-united with his five brothers and two sisters. His wife, a native of Austria, also visited her former homeland.

On their return home the couple was greeted with a surprise party given at their home by their son, Steve Racheff and family and their daughter, Mrs. Ray Muehl and family. As an additional welcome home gesture, the two families had remodelled part of their parents' home while Mr. and Mrs. Racheff were abroad.

Other guests included Mr. and Mrs. Joe Rice, Mr. and Mrs. Frank Austin, Mr. and Mrs. Nick Nelson, Mr. and Mrs. Docho Vasileff, Mr. and Mrs. William Crnkovich, Mr. and Mrs. Ralph Daigger, Mr. and Mrs. Joseph Podnar sr., Mrs. Catherine Conreux, Mr. and Mrs. Arthur Moore, Mr. and Mrs. Charles Matridge, Mr. and Mrs. Mick Orekhovich, Al Laush, Leo Portell, Mr. and Mrs. Matthew Mullen and Mr. and Mrs. William Waichel of East St. Louis.

The couple will live at 2611 State street.

GCBS Homecoming Events To Start on Wednesday

Activities in the Granite City high school's annual Homecoming celebration will begin at 8 p.m. Wednesday with presentation of the Homecoming play, "Ben-Hur," in the school auditorium. It will be repeated at the same time Thursday.

Coronation ceremonies for the new Harvest Queen will be held immediately after the performance. Ten girls are candidates, and the winner will be crowned for the first time at the coronation. The other nine will form the court, along with 20 boys, half of whom will serve each night of the Homecoming festival.

The play, directed by Richard King, will have a cast of 123 students and 12 scenes. It will feature a chariot race and burning and sinking of a ship, for which construction is to be completed tomorrow.

A pep rally will be held at 6:30 p.m. Thursday for students in Wilson Park in preparation for the Homecoming football game with East St. Louis at 8 p.m. Friday.

Alumni Reunion
An alumni reunion will be held from 6:45 to 7:45 p.m. Friday in the school cafeteria. Coffee and doughnuts will be served. Wives or husbands of alumni members also were invited to attend. Tickets to the game will be available in the cafeteria, according to Principal Lawrence McCauley, to permit members to avoid long lines at the gridiron ticket booths.

A Homecoming dance will follow the football game. Students started selling souvenirs today. Along with traditional mums and red and black shakers, badges supporting the team are being sold. The badges are "large, in the form of a red and black stop sign, with an Indian insignia and the words "No One Can Stop the GCBS Warriors."

Large white mums have been selected and contain a large black "G" on them with bright red ribbon around the stems. A small gold football is attached to the ribbon. The mums sell for \$1.

Park Handicraft Class To Start on Wednesday

The Granite City park district will begin its handicraft program for women from 7:30 to 9 p.m. Wednesday at the community center, 822 Niedringhaus avenue. Classes will be conducted during the same hours on consecutive Wednesdays for a six-week period. Harold Brown, park superintendent, announced.

A display of the various crafts to be taught may be viewed at the first session, enabling participants to select the project they wish to undertake. A slight fee to cover the cost of materials will be charged to those enrolled, Brown said.

3 Parking Arrests
Arrest tickets were issued to three motorists Friday for parking violations — Louis Rigby, 2601 Bryan avenue, for parking in a loading zone at 23rd street and Grand avenue; Donald Cooper, Kural Route One, a no-parking zone at 1700 Spruce, and Fred Shafer, 3343 Palm avenue, a no-parking zone at 19th street and Edison avenue.

Hit-Run Accident
Edna Kohlbrecker, 2452 Center street, reported Friday afternoon that the left side of her auto was damaged while the car was parked on the Granite City high school parking lot.

Parked Auto Hit
The parked auto of Gene Hecht, 2425 Benton street, was damaged Friday afternoon when it was in front of his home and was hit by a northbound auto driven by Margaret Komadina, 2009 Amos avenue.

Bi-State Transit Revises Bus Schedule for SIU-SW

In response to requests from Southern Illinois University-Southwestern Campus students, Bi-State Transit System has announced several changes in its daily schedule of bus service from Alton and East St. Louis to the new SIU-SW campus.

Effective today, the first three runs each morning from the two locations will depart 15 minutes later, leaving at 6:50, 7:50 and 8:50 a.m. and arriving on campus at 7:45, 8:45 and 9:45. Buses which previously left the campus at 6 o'clock in the evening for the return trip will now leave at 6:20 in order to accommodate students who have classes ending at 6:10.

The last two evening runs which previously left Alton and East St. Louis at 6:55 and 9:40 p.m. and started their return

trips from the campus at 8:40 and 10:40 will be discontinued because there have been virtually no passengers at these hours.

According to the original agreement between the carrier and SIU-SW, Bi-State is committed to continue through the fall quarter only five of its daily trips from each starting point, and could have discontinued the other five as of Oct. 6 if their use at that time was insufficient, which was the case.

Instead, the company has decided to continue at least for the present, eight of the 10 daily trips, and Bi-State and university officials are hopeful that the added convenience of the new schedule will attract enough passengers so that all runs can be maintained on a firm basis.

2 Driving Charges Filed

John Raymond Boneau, 2247 Grand avenue, and Ronald L. Garofoli, 2101 Hildebrand street, Cloverleaf, were arrested on charges of careless driving at 23rd street and Madison avenue at 10:10 p.m. Thursday. They were summoned for hearings by Nov. 12.

KC's to Offer Chalice To Honor Late President

A chalice with the name of late President Kennedy engraved upon it is to be sent to Mrs. Kennedy by Tri-City Council 1068 in connection with the council's memorial service for deceased members on Nov. 21.

Dan McGee, general program chairman, reported at Thursday night's meeting that the chalice ceremony will be conducted by members of the fourth degree assembly during the memorial program to be held at 8 p.m. in the Granite City high school auditorium.

The local assembly has a policy of providing chalices in honor of its deceased members to be used by missionary priests in all parts of the world. The late President was a fourth degree knight. The chalice is to be purchased through individual contributions of K. of C. members.

Big Decisions Pending Before GC Council

A busy session is in store for Granite City council members at 8 o'clock this evening with major items of council business from the Oct. 4 session when a bare majority of aldermen was present.

Pending is a decision whether the city should accept the snorkel fire truck requested from Granite City Steel Co. in exchange for streets and alleys in the behind-the-mill area, or switch to the fire chief's recommendation for an aerial ladder truck.

The decision was stalled two weeks ago for a recommendation from the Fire and Water Committee, Fire Chief Fronberger and Mayor Partney. Only nine aldermen were present for the meeting Oct. 4 as most of the other seven were attending the Illinois Municipal League convention in Peoria.

Crossing Guard Pay
Pay increases for the 12 school crossing watchmen also was referred to committee at the Oct. 4 meeting. The watchmen are asking for a \$2-a-day increase from the present \$6 wage for the part-time jobs. The Personnel and Finance committees are to make recommendations.

SIU-SW Worker Struck By Crane Boom, Killed

Herschel J. Jones, 38, of Edwardsville, a part-time construction worker on the Southern Illinois University—Southwestern campus, was killed Thursday afternoon when he was struck by a falling crane boom.

Mr. Jones, a yard foreman for the Northwestern Railroad, was hit at his left shoulder when a cable supporting the boom snapped. The boom fell about 20 feet. He was working on the student center building when the accident occurred. An inquest will be held.

He was employed on a part-time basis by the Fruit-Columbian Construction Co. Survivors include his widow and four children.

Careless Driving Charge
Iona Davis, 2161 Lee avenue, was arrested early Saturday on Madison avenue at 16th street on a charge of careless driving. Her hearing is set Nov. 16.

Red Cross First Aid
A reminder that a first-aid class will be started in the Madison Recreation Center tomorrow by the Tri-Cities Chapter of the American Red Cross was issued by the organization today.

The class, which will be conducted every Tuesday for six weeks from 7 until 9 p.m., will enable graduates to enter advanced courses of first aid.

Those completing the five-week course will receive a certificate and will be eligible for the advanced eight week, 16-hour class. Mrs. Maxine Dunham, chairman of the First Aid division of the Red Cross, pointed out.

The Red Cross is anxious to increase the number of students and instructors and anyone interested may call the Red Cross office, GL 2-7354, Mrs. Dunham said.

Backfire Causes \$50 Damage to 1962 Auto
Firemen were called to Johnson road and Carlson avenue at 7:50 a.m. Friday where a carburetor backfire caused \$50 damage to a 1962 auto owned by Bernice Hightower, 2139 Myrtle avenue. They also were called to the home of Donald Barnhart, in the 1200 block of Granite avenue, where a small girl playing with a cigarette lighter set a small fire. It was out when they arrived, however, and there was no damage.

At the early October meeting, the council turned down a request for two watchmen to be placed in the vicinity of Niedringhaus school on Fehling road at State street and on Benton street at Oregon avenue. It is anticipated that the request, backed by petitions with 250 signatures, will be revived.

Ordinances on first reading include one dedicating sections of Omaha street and Park avenue and alleys north of 21st street to Granite City Steel Co. for a consideration of \$1000 to be applied to the cost of the fire truck. Another would set a uniform \$3 fine

for non-moving traffic violations. The fine would jump to \$5 if not paid within 24 hours of the issuance of a ticket. The arrest ticket is to be in the form of an envelope.

There also is a possibility the aldermen and other city officials who attended the IML convention will submit reports to the council. During the past two weeks the council has reviewed the possible adoption of an up-to-date plumbing code, has sought applications for the post of city engineer and has inspected a \$300 mechanism that will refurbish old traffic control signs at a reported savings of about \$2 per sign compared to the price of new ones.

Reports on the status of Nameoki road and the Maryville road projects, including an agreement with the county for the Maryville road project under a joint motor fuel tax arrangement, are pending.

A start on appraisals for the section of Madison road south of Madison avenue is expected soon. Monthly reports by city officers are to be presented, and City Clerk Homer Pendleton said he has reports from the state that the city's motor fuel tax allocation for September amounts to \$21,397 and the city half-cent sales tax payment for July totals \$22,622.

Out-of-Court Agreement Seen in RR Tax Fight

An out-of-court settlement proposal by railroads who have paid over \$2,000,000 taxes in Madison county under protest is due by Saturday.

School administrators, who met last week, have agreed to permit an extension in an effort to reach an agreement without further court action. The taxes are for the years 1957 through 1962.

The issue has been through the circuit and appeals courts and also the state supreme court which favored return of a major share of the disputed money to the railroads.

MRS. ROBERT S. ECK, the former Rosemary Calvin, daughter of Mr. and Mrs. Wilmer Calvin, 2444 Hemlock avenue, who was married Saturday morning at St. Cecilia's Catholic Church in Glen Carbon.

Miss Rosemary C. Calvin is Bride of Robert C. Eck

The wedding of Miss Rosemary Calvin and Robert C. Eck took place Saturday morning in St. Cecilia Catholic Church in Glen Carbon.

The parents of the couple are Mr. and Mrs. Wilmer Calvin, 2444 Hemlock avenue, and Mr. and Mrs. Steve Eck of Rural

Route Four, Edwardsville.

Altar bouquets of white gladiolus and pom poms decorated the church for the 10 o'clock ceremony performed by the Rev. John Morris. White satin ribbon marked the family pews.

Miss Norma Sasek presided at the organ and accompanied the church choir members as they sang "Ave Marie" and "On This Day."

The bride was given in marriage by her father. She wore a gown of white peau de soie fashioned with a scoop neckline, long tapered sleeves and a fitted bodice accented with motifs of Chantilly lace. Lace motifs were repeated in the bouffant skirt which swept into a long train. A forward floral headpiece with pearls and crystals held a tiered veil of illusion and the bride carried an arrangement of tear-drop carnations, lilies of the valley, greenery and ribbons.

The maid of honor, Miss Mary Grillon, and bridesmaids, Miss Pat Jones and Miss Janis Zimmer, were dressed alike in turquoise velvet gowns with high rise bodices scoop necklines and long tapered sleeves. Satin banded the waistlines of the long slender white crepe skirts. Matching bows with pearls and tiny veils were worn in their hair and they carried old-fashioned nosegays of white carnations with blue tinted centers.

Richard Eck was best man for his brother; and Dale Culpen and Rudolph Eck, another brother of the bridegroom, served as groomsmen and ushers.

The bride's mother wore a dark blue velvet sheath dress and a corsage of white roses. The bridegroom's mother was in a beige sheath and yellow roses. Both wore matching accessories.

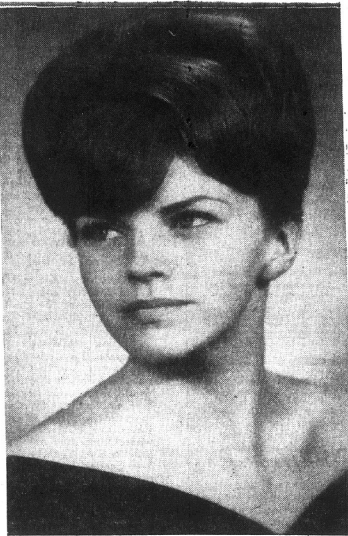

A reception was held in the church hall. The newweds will make their home in Edwardsville.

The former Miss Calvin was graduated from the local schools and is presently attending the Qlin School of Nursing in Alton. Mr. Eck, a graduate of the Edwardsville high school, is attending SIU-SW.

A rehearsal dinner was given at the home of the bridegroom's parents Friday evening. Michaeline and Elizabeth Eck presided over the guest book at the reception.

THE SPEAKING PASTOR

REV. R. PAUL SIMS
Niedringhaus Memorial
Methodist Church

The Apostle Paul, in his letter to the church at Corinth, wrote, "When I was a child, I spoke like a child, I thought like a child, I reasoned like a child. When I became a man, I gave up childish ways." (1 Corinthians 13:11).

Did you ever know a normal child not interested in growing up? If only growing up were simply a matter of years, inches and pounds! Life would not be so complex if this were true.

It is always a devastating discovery for the first time that six feet and 200 pounds, or even five-foot-two and eyes-of-blue, do not necessarily make a person grown up.

And the pity is that when we do become adults and know better, we still tend to slip back into these childish immunities.

Non-Adult Adults

Most of the trouble and anguish of the world—whether in world affairs, in family affairs, in personal maladjustment, or even in labor strife—grows from the failure of adults to act like adults.

A person who is really grown up has a capacity for tension. He has the courage to endure unpleasant situations, painful experiences, denied desires and disappointments.

Paul said, "Love is patient and kind... Love bears all things, believes all things, hopes all things, endures all things. Love never ends." Love must be the motivation of those who would develop a capacity for tension.

All of us are well acquainted with the behavior of a child who has little or no capacity for tension. When a baby is hungry, he

Our Brother's Keeper—Whether We Recognize It Or Not

Drowning of a Centerville boy not quite three years old who wandered away from a family outing near Centerville, Mo., has been a "brother's keeper" issue being carried too far. If he had been picked up while wandering near Highway 111 and turned over to police, he would have been dead today.

Granite City Army Depot soldiers aiding in the search for the missing boy, whose body was recovered 16 hours later in a shallow slough near the Route 111-Interstate 55 interchange, learned that at least two motorists had seen the youngster but continued on their way. One of the motorists learned of the search after arriving at his home in the River and returned to the scene to tell where he had seen the boy walking. By then, it was too late.

The issue is not easily solved because there are hazards of "becoming involved," possible suspicion of kidnapping a child should be involved in all but very unusual circumstances. Yet, there were no nearby homes, and it is obvious that a boy so young needs help when lost and wandering alone in a new district.

Regardless of any other considerations, we all are "our brother's keeper." Some may forget or ignore it, but the responsibility remains.

Second Of Three Redistricting Tasks Completed In State

Early Congressional redistricting talks, in the half-joking words of State Sen. Alan Dixon, Belleville, centered over whether he or Sen. Paul Simon, Troy, would be "promoted to Congress." Both are Democrats and must either wait for Cong. Melvin Price (D), East St. Louis, to retire, or get into a new district.

Now that reapportionment has been carried out by state and federal judges, speculation centers instead on a Republican, State Rep. Ralph Smith, who is not a delegate to the state convention, George Shipley (D), Springfield, who is a delegate, which now will include 13 Madison county townships as well as all of 14 other counties. The Quad-Cities remain in Price's 24th district, which retains St. Clair county but loses roughly half of Madison county.

While there has been justifiable criticism of the fact that the courts were saddled with a task customarily not delegated to them, it is worthy of note that the judges did act in a reasonably fast, fair and effective manner not only on Congressional redistricting but on Illinois senate reapportionment. The legislature in both instances had failed to compromise differences based on political considerations.

Because the judges themselves cannot entirely separate boundary questions from their knowledge

Three-Car Accident

Three cars were damaged when one driven by Julia A. Miller, 2021 Fourteenth street, who stopped to make a left turn, struck in the rear by James F. Hildreth, 1922 Lynn avenue, who also had stopped. Hildreth's car was hit from behind by an auto driven by Joseph W. Gruber, 2803 Grand street. The accident occurred at 6:15 p.m. at East 23rd street and Nameoki road.

Benefits For More 72-Year-Olds

(This is the eighth in a series of columns by Ralph Brannan, social security district manager in East St. Louis, telling what the social security act of 1965 means to you and your family.)

Many Madison county residents over 72 who had not previously had some social security work credit to get benefits may now be eligible to receive payments.

Before the recent changes in the social security law, at least six quarters of coverage—about a year and a half—were required to get benefits.

Under the new provision, benefits may be paid in some cases to a worker (and his wife) if the worker has three quarters of coverage, about nine months of work. The exact number of quarters of coverage needed depends on the age of the worker.

A man 72 or older or a woman 73 or older in 1965 needs just three quarters of coverage, or about nine months of work in 1965 needs four quarters of coverage, and a man 74 or a woman 71 in 1965 needs five quarters of coverage (to qualify

Among the rules adopted at the 33rd annual convention of the Illinois Federation of Labor, which convened yesterday morning at the Hippodrome in Alton, was one prohibiting smoking and chewing of tobacco during the sessions.

Among the labor delegations from the Tri-Cities attending the convention are William Ballard, William Herman, Fred W. Hessler, J. E. Wigger, L. C. Crain, Grover Foulke, David Boring and McKinley Lines, and many made the trip in automobiles and on regular train cars.

A bevy of charming young college students at Forest Park University, St. Louis, spent several hours in Granite City, viewing the wonders of some of the plants of this area. They visited the Corn Products Refining Co. and the Stamping Works. At each plant, the girls enjoyed an escorted tour through the working area and received souvenirs of their trip.

This Area A 'Natural' For A Medical School

Much interest will be attracted by the proposed SIU-SU medical college meeting Wednesday because of the great value such an institution would be to this region and state.

The Illinois State Medical Society is on record as urging establishment of additional medical school facilities, on the national shortage of doctors is well known to all. Locating such a school on the local Southern Illinois University campus would meet three key tests: 1. Availability of an able university administrative staff. 2. Proximity to hospitals where varied illnesses and injuries are treated. 3. Location within an area where numerous medical and surgical authorities practice and teach.

Second largest metropolitan area in the state, the Illinois Metropolitan Area of Madison-St. Clair counties is a "natural" for medical training because of its close geographical relationship to nationally-renowned hospital and research facilities in St. Louis. We urge the Illinois Board of Higher Education to listen closely to the recommendations developed at such meetings as the one scheduled for this week.

New Approach To Economy In School Construction

Due to soaring enrollment and the expanding fund of knowledge that must be imparted to students, school construction spending has climbed rapidly to a \$4 1/2 billion level annually in the United States.

Efforts to more fully utilize this huge investment have taken the form of split shifts in some school districts, with numerous colleges and universities adopting year-around schedules and many high schools increasing sharply their summer instruction programs. But still another economy—less costly construction—is being sought.

More and more attention is being devoted to a School Construction System Development program launched on the west coast with Ford Foundation and Stanford University assistance, because it appears to avoid the pitfalls of past experience in this field. Its goal is cost reduction through standardization, with square foot costs slashed from the usual \$14-\$18 range to \$6-\$9, but its mass-produced components are designed to permit full adaptability to local requirements and desires, as well as to attractive structures.

Basic elements are movable walls, a ceiling with built-in lighting, standard framework and combined heating and air-conditioning systems. Not only can the size, shape and internal design of schools be varied when assembly takes place, but interior components can be shifted within minutes to convert areas from small rooms to large lecture halls and back. Lighting and ventilation remain suited to the exact need regardless of how the walls are moved.

Lower initial cost and greater speed in completing building programs have been cited by critics in many quarters, but the program appears to offer such a major improvement that it deserves serious study here and elsewhere.

Hunters Told--Shoot For Safety

Recalling the incident last year when a farmer received much publicity by painting C-O-W on his broad brown bovine to protect it from overzealous hunters, Dr. John W. Ferree, executive director of the National Society for the Prevention of Blindness, has zeroed in on the hunters soon to be taking to the woods.

Aiming at the thousands of "Sunday shooters," Dr. Ferree says they will more often be the targets themselves, rather than the cows, because of defective eye sight.

Accident records compiled by the NSPB indicate that nearly one out of every four victims of hunting accidents was the result of misidentification of a man for an animal, and that an alarming 13% of those hunters injured were hit while out of sight of the shooter.

Safety Suggestions

Urging the hunters to show full consideration for their own safety, as well as that of others, the NSPB official has recommended the following voluntary measures to improve hunting safety, over and above the routine equipment purchasing and checking:

1. A comprehensive eye examination for all hunters annually before the opening of hunting season.
2. Carrying of spare eye-glasses, with an up-to-date prescription, in case of the loss or breakage of one's regular pair.
3. Use of shatter-resistant safety lenses for protecting the eyes from twigs, ejecting shells, stray pellets and other field hazards.

Protective Goggles

Dr. Ferree calls special attention to the advertiser and those not requiring glasses, in the interest of continued eye safety, to wear protective goggles in the woods, emphasizing that "one's vision is an irreplaceable gift."

He further stresses the necessity of special attention to the loss of visibility and the difficulty of making out contrasting colors while wearing sunglasses, either in the woods or on a road.

Because of the comfort afforded by the reduction of glare, Ferree cautions those hunters wearing sunglasses, to be especially careful to remove them before starting the drive home.

POOR HEARING MAY RESULT FROM EARWAX

Every time John stepped out of the shower, he felt the room was spinning around him. He spoke, his voice sounded unusually loud, distorted and boomy to him—like he was talking into a barrel.

In discussing the problem with his physician, he was relieved to learn it could be solved merely by having his ears cleaned.

Excess earwax had formed a hard plug in his ear, completely blocking the auditory canal. This is what accounted for his strange symptoms.

Few people are aware of the problems excessive earwax can cause. In addition to dizziness and distorted hearing, it often causes pain and intense itching and provides an ideal place for bacteria which could lead to temporary and even permanent hearing loss.

Earwax—if it does not accumulate—serves a very useful purpose. It is nature's way of keeping moving dead cells, dust, hair and other foreign matter from your ears.

This waxy substance, which is manufactured by the sebaceous and sweat glands located inside the ear, is pushed along by your natural jaw movements. When it reaches the outer ear, it breaks into tiny particles and falls out, along with the debris it has picked up.

But, if something goes amiss with this "cleaning out" process, the earwax may form a plug.

Persons who are prone to the most common conditions responsible for earwax plugs are (1) ears that have extremely small openings and (2) excess hair covering the ear opening.

The glands which produce the earwax could be at fault. If they do not secrete enough liquid to make the wax soft, it may become hard before it reaches the outer ear.

If you experience excessive earwax, never attempt to remove it yourself. Use of cotton swabs, hairpins and paper clips, can easily pierce the delicate and sensitive tissues of the ear—and may cause deafness.

Leave the "unplugging" to your doctor.

TODAY'S INVESTOR

BY THOMAS S. O'HARA
CHIEF, REAL ESTATE DIVISION

Q. What is a "closed-end investment trust" and for me to consider it a good place for you to put my money?

A. A closed-end investment trust is a company that uses its money rather than manufacturing money to invest in other companies, and buy them back again when an investor decides to liquidate. As a result, open-end trust, but its shares of stock are handled quite differently.

A closed-end fund has a set number of shares which may be listed on an Exchange and are bought and sold like the shares of any other corporation. If you would buy shares in such a trust after the original date of issue, you would be buying on the open market, just as you would for the stock of any other company.

For this reason, the shares of a closed-end investment trust do not necessarily sell at their net asset value. They may sell either above or below it, depending upon how many investors are bidding for it and how many are willing to sell it at a given price.

Open-trusts, on the other hand, issue new securities as they need for investment comes in, and buy them back again when an investor decides to liquidate. As a result, open-end trust, but its shares of stock are handled quite differently.

Reports that a number of world war two veterans are eligible for dividends on their old GI insurance policies are untrue, according to the Veterans Administration regional office in St. Louis.

Rumors were widespread that 50 cents for each \$1000 of insurance carried for each month of service would be paid if application was made by the veteran. The VA spokesman said he did not know how it was started, but that his office had received about 1000 telephone inquiries about it.

vice-president, to join the company's negotiating staff.

Top union officials contacted by the company assigned H. J. McClain, a district director of Chicago, to the union negotiating committee.

Subsequent meetings failed to produce any more satisfactory results than earlier negotiation meetings and, although meetings were held all day last Monday and Tuesday, an apparent complete collapse of relations between the company and union groups developed at the end of Tuesday's session.

"I hate to call it a complete collapse of negotiations," O'Keefe told the Press-Record, "but actually that is what it amounted to."

O'Keefe explained that the negotiating meeting scheduled for Thursday was arranged through the Washington office which has been alert to the situation here and which recognized the necessity of immediate action by higher echelon officials "all the way around" if any progress toward settlement is to be accomplished.

Steps Into Picture

O'Keefe, who has handled the arrangement of negotiating meetings between company and union since last June when local negotiations struck a snag, said that the Washington Mediation Service begins an alert watch on all union-company conflicts after they go into their 75th day, and is likely to step into the picture any time after that.

The St. Louis mediator said he was called by the Washington office after the breakdown of negotiations last Tuesday and informed that office was attempting to set up a meeting with top officials. Later, O'Keefe said, he received word that Reed from the company and Swisher from the union had consented to be present.

Breakup of negotiations and the long deadlock between local negotiations has involved principally the issue of craft realignment by the company, involving the combination or reclassification of jobs to eliminate what the company has referred to as "featherbedding."

The union has protested on grounds the company proposal would mean elimination of jobs or pay cuts. The company has replied that such is not the case, that it has offered the union a written guarantee in the contract that there will be no loss of jobs or pay cuts to incumbent personnel involved in the craft realignment.

Also at issue are wages and grievance procedure—both union points. In fact it was the union that reopened negotiations on the wages and grievance procedure last April that precipitated the deadlock, because when the union reopened its two issues, the company reopened its position on the craft realignment issue.

The old contract expired on July 8, 1964. Negotiations resulted in the signing of a new contract on Aug. 24, 1964, with the provision that the wages and grievance procedure items could be renegotiated by the union at any time on 60-day notice. The company reserved the right to reopen its craft realignment proposals on the same 60-day notice.

ous." At the neighborhood level these residents feel that air pollution and lack of recreation areas and programs are the major problems."

The six social problems on which respondents were asked to express their opinions included lack of recreation areas and programs, unemployment, race problems, garbage and refuse disposal and juvenile delinquency.

St. Clair county residents, listed concern over recreation problems, unemployment and air pollution at the city or township level, but at the neighborhood level listed air pollution as the most serious problem.

The report also set out that in its overall findings, more persons in the entire area surveyed, covering both sides of the River favor administration of an air pollution abatement program by a bi-state agency than any other type of agency control, either local, state or federal.

To report marks completion of the first phase of the two-section study. The second phase, that concerning air pollution control, air quality standards and ordinances, polling of the ordinances and financing a control agency, is now nearing completion.

GRANITE CITY CLASSES BEING FORMED

World-famous Evelyn Wood who developed the technique and program of reading dynamics.

After 14 years of working with educators, public figures, others who read rapidly and after long research and testing, Mrs. Wood taught the first classes in Washington, D.C.

So startling were the results the story was carried coast-to-coast, appearing in Time, Newsweek, Business Week, Esquire, The Christian Science Monitor and many newspapers. Graduates appeared on Tonight Show, Garry Moore, I've Got a Secret, consistently showing that they had fantastically increased their reading speed and with a gain in understanding.

Over 1/4 Million People Have Taken "Reading Dynamics" in 19 Institutes Around the Country

Here's What Some of Them Say:

- | | |
|--|---|
| Senator Symington, Missouri:
"I can read most material at speeds above 3,000 words per minute. I have read technical material in the 2,000 words per minute range."
Dr. Helen Ross, St. Louis, Mo.:
"I must say that this is one of the most exciting developments in reading. Many students would benefit from a course such as this." | Newsweek & Mother of Text, Washington, D.C.:
"It's the most startling thing that ever happened to me. I can handle what I'll have time to read in weeks in a few minutes. I have read through the thousands of books in the public library. I have read through the thousands of books in the public library. I have read through the thousands of books in the public library." |
|--|---|

MONEY-BACK GUARANTEE

We guarantee to increase the reading efficiency of each student AT LEAST three times with equal or better comprehension. We will refund the entire tuition to any student who, after completing minimum class and study requirements, does not at least triple his reading efficiency as measured by beginning and ending tests.

How Reading Dynamics Differs from the Others

No machines are used. You learn, instead, to use your head as a power—tool you always have with you.

Conventional rapid reading courses require to 450-600 words per minute. Reading Dynamics graduates can read between 1,200 and 3,000 words per minute, many go even higher.

'Cadette Flight' Skill Training Attracts 800

Six hundred seventy five girls and 125 adults took part in a "program flight" of Cadette Girl Scouts at Highland junior high school Saturday under the auspices of the River Bluffs Girl Scout Council.

The girls were Girl Scouts 12, 13 and 14 years old—from the 5½-county area of the River Bluffs Council. The occasion offered them "an opportunity to become acquainted with some of the soaring program possibilities for this age level of Girl Scouting."

The affair, scheduled from 1 p.m. to 8 p.m., began with a talk by Miss Julie Whitney of Royal Oak, Mich., who traveled here expressly to take her hearers "out of this world." She showed the girls how they can qualify for selection to attend sessions at the World Centers of Girl Guiding and Girl Scouting in Adelboden, Switzerland, and Cuernavaca, Mexico, as she has done. Seven hours later, the day ended with a bonfire.

In between, each girl and adult participated in three sessions, gaining knowledge and mastering skills in eight program areas—some traditional, others "way out."

Demonstration Leaders
Demonstration leaders who volunteered their time to acquaint the Cadette Scouts with their own special areas of interest were:

Mrs. Richard Rice, Edwards-

ville, dog care and obedience training.

Mrs. B. J. Isselhart, Edwardsville Garden Club, flower arrangement and party themes.

Mrs. James Almeter, Alton, puppet making and the producing of puppet shows.

Mrs. Dorothy Gore, geology professor, The Principia, Elsie, rocks, minerals, and fossils.

Mrs. Lynn Hargis, Highland junior high school, Home Economics Department, party foods and snacks.

James Bridwell, Edwardsville, Col. U. S. Army, Ret., sonic rooms.

Mrs. G. Lynn Edwards, Edwardsville, hair styling and makeup.

Local Square Dancers
A square of dancers from Granite City under the leadership of Robert Boyd, 16, and Deborah Jane Smith, 13, who danced in the Teen Room at the National Convention of Square Dancers and Callers in Dallas this year, was featured.

The group called and taught round and square dancing. During dinner, served in the elementary school cafeteria in two shifts, the alternate shift tried to capture the elusive skills of lemmi sticks (taught by the past Junior Girl Scouts) and the Philippine pole dance (demonstrated by members of Troop 3, Wood River).

There were 110 girls and 28 adults from the Quad-City area registered for "Cadette Flight."

Wortman Remains Ill, Tax Trial Continued

The income tax evasion trial of gang boss Frank "Boss" Wortman has been continued until Jan. 10 by U. S. District Judge William G. Juergens in East St. Louis.

Three physicians testified that Wortman, who is ill, will have to be hospitalized for at least two more weeks and will require a longer period of convalescence. He is a patient in Alexian Brothers Hospital, St. Louis.

Doctors said Wortman has elevated temperatures and blood counts indicating an acute infectious process and has chronic bronchitis and pulmonary emphysema.

Woman Charged with DWI Following Accident

Shirley F. Howland, Rural Route One, was charged with driving while under the influence of liquor after an auto accident involving her car and one driven by Richard E. Stanfield, Bridgeport, Mo., at 8:20 p.m. Thursday at Faith and Wayne avenues.

At 4 a.m. Friday, she complained of being sick to her stomach and was taken to St. Elizabeth Hospital where she was admitted.

Church Revival Opens

Revival services began Saturday night at the West 22nd Street Baptist Church and will continue nightly at 7:30 through Sunday, Oct. 24. Rev. Rudolph Noel, pastor, has announced. Rev. H. D. Knight, McMinnville, Tenn., is the evangelist and special singing is being featured.

Three Radar Arrests

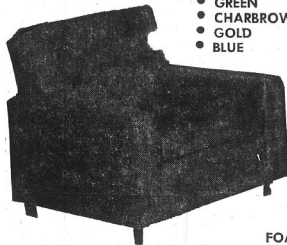

Three drivers were issued arrest tickets Thursday afternoon as police utilized radar unit. Charged were Ronald A. Briggs, 4265 Lake drive; Norman R. Burchfield, Rural Route One; and Robert L. Tritsch, 2312 Roney drive.

Youth Fined for Theft

Dale M. George, 17, of 708 Third street, Venice, was fined \$100 and costs Thursday afternoon by Magistrate Hiscott on a shoplifting charge. He was arrested Thursday at Grant's store at the Nameoki Village shopping center.
